

Register now for the Green Schools Quest: A Project-Based Challenge, an annual program that invites PreK-12 schools in Missouri and Southern Illinois to devise and implement creative, effective and no/low-cost sustainability practices with the help of a Green Mentor.

Each participating school forms a team of students (club, class, grade level, or entire school) led by a facilitator (teacher, administrator, staff, or parent). The school is then paired with a **Green Mentor** from the community who helps with project ideas and resources.

Teams engage in their chosen sustainability project from October through March and submit their outcomes for a chance to win prize money. Projects must be new or major extensions of existing initiatives at the school.

The theme of the 2024-2025 Quest is Biodiversity + Wellness, and school teams are encouraged to explore the biodiversity around their schools to determine how their project could impact the wellness of their community. Wellness includes a wide variety of potential topics, including mental or physical health, community health, environmental justice, or any sustainability-related wellness initiative.

2024-2025 GSQ Timeline

Mentor registration deadline ----- **August 31**
 School registration deadline ----- **September 15**
 Teams implement projects ----- **October - March**
 Submit outcomes for judging ---- **March 15**
 Winners announced ----- **April**
 Awards presented ----- **May**
